

Traps to catch sunbeams

A talk on the camera obscura through time

by Sam White

The talk is built on experience designing and building camera obscuras, and researching the many creative ways they have been used in the past.

Discover:

- How they have been put to use by artists through time
 - Hear new theories involving obscuras in the time of the caveman!
 - Learn how a camera obscura had one man imprisoned for witchcraft
- AND Step inside my latest design - a multi lens obscura

Friday 26th April

7-8.30 pm

£3
